Bio Med Ingredients - where quality matters...

Bio Med Ingredients is committed towards good health and protection of the environment. Bio Med Ingredients was born in 2016, our mission has been to manufacture and supply organically produced herbal extracts to the nutritional, cosmetic, pharmaceutical and food industries. We live in an era, where health is not wealth but it is seen as a means of making wealth. Conventional farming is literally killing our well-being and ecology. In order to increase the yield exponentially, harsh and hostile chemicals are introduced into farming. This has not just damaged our soil and water but has introduced a host of new diseases that are affecting both man and animals.

ABOUT US

Bio Med Ingredients is a renowned supplier of top-notch natural ingredients that consistently meet global standards of excellence. Our range of spices and herbal extracts caters to a wide variety of industries, including food & beverages, dairy products, nutraceuticals and dietary supplements. We offer our high-quality products across these sectors and ensure that our customers can find the perfect ingredients for their specific applications. Our cutting-edge technology is revolutionizing the extraction process of spices, herbs, and vegetables. With our state-of-the-art equipments, we can extract the finest and purest ingredients with utmost precision. We offer world-class facilities for extraction, microencapsulation, encapsulation, coating, blending, granulation, tableting, and other customized processes. At the core of our philosophy is a simple yet powerful purpose: to bring more joy, vitality, and wellness into people's lives through the wonders of nature. We aspire to have a positive impact on society and the environment through our products, practices, and technologies. Our team of proficient scientists is diligently working towards harnessing cutting-edge technology to create natural ingredients, prioritizing sustainability and versatility for a wide range of applications.

Innovation centre

The Innovation Centre excels with exceptional infrastructure and top-of-the-line instruments like HPLC, GC-MS, LC-MS, UV and ICPMS, keeping us at the forefront of scientific exploration and analysis.

Research & Development

Our Research & Development innovation center proudly boasts state-of-the-art instrumentation equipment and pilot plant facilities. Our scientists engage in research activities focused on natural active ingredients, adeptly isolating and standardizing them from a diverse range of spices, herbs, vegetables and fruits. Our commitment to product efficacy is validated by rigorous pre-clinical and clinical studies. Furthermore Bio Med Ingredients research contributions are exemplified by filling patents and publishing research papers in notable national and international journals.

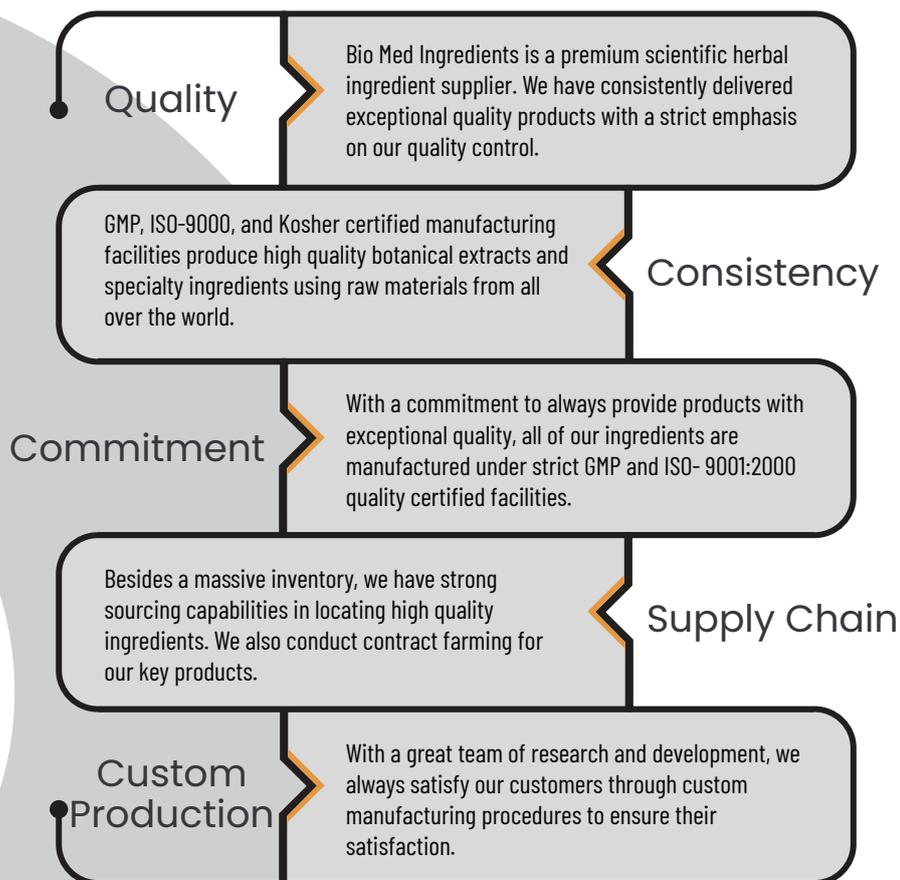

Prioritize Quality *At Bio Med, we prioritize quality by implementing robust inspection procedures, meticulously scrutinizing every step from raw materials to the final products.*
