

Green Tea

GREEN TEA: your daily dose of vitality.

Tea infusions have been enjoyed for centuries, not only for their pleasant taste but also for their medicinal properties and ability to promote relaxation. These infusions are rich in bioactive compounds, which make them excellent ingredients in the field of food science.

Sipping a warm cup of tea can work wonders for your serenity, calming both your mind and body. It's the perfect natural remedy to help you unwind and de-stress.

Discover the True Power of Green Tea:

Rich in Polyphenols: Our Green Tea Extract is a premium source of polyphenols, including the highly sought-after EGCG.

Potent Antioxidant Properties: Helps reduce oxidative stress and fight inflammation for a healthier you.

Heart-Healthy: Lower blood pressure and support cardiovascular health with this natural extract.

Weight Loss Support: Regulate hormones to enhance thermogenesis, aiding in weight loss and fitness goals.

Skin Savior: Combat dermatitis, rosacea, and acne for clearer, healthier skin.

Low Caffeine Content: Contains less than 1% caffeine for those with sensitivity

Experience Unrivalled Quality:

Premium Green Tea Extract:
Crafted with precision and dedication for exceptional health benefits.

Various Potencies Available:
Choose from concentrations ranging from 40% to 75%, with a catechin-free option up to 70%.

Meticulously Prepared:
Our cutting-edge facility uses solvent-free extraction technology for optimum purity and potency.
